Everything You Need in an Emergency

Everything You Need in an Emergency

As an innovative supplier of emergency medical supplies, our continued success is driven by the ability to develop and deliver effective solutions whilst maintaining an unrivalled level of customer service.

Our specialised knowledge and industry experience ensures that we can supply the correct emergency medical equipment and supplies on each occasion, having a complete understanding of the equipment requirements for patient care.

No order is too big or too small. We can customise our existing emergency equipment and kits to your specification or even create new equipment kits to suit your exact requirements. That's why we can be relied upon to provide "everything you need in an emergency".

Our full product range can be found on our website at www.spservices.co.uk

"Choosing the correct emergency medical equipment for today's demanding environments is not always easy. SP Services offers you support and guidance in selecting a total solution to give you peace of mind"

Steve Bray Managing Director

What you want, when you want it

SP Services is one of the largest suppliers of emergency medical supplies in the UK and has been established for over 27 years. Centrally based in the West Midlands our 32,000 ft² National Distribution Centre is ideally located to serve you, wherever you are in the country or the world.

Our huge stocks and regular deliveries ensure that you get what you want, when you want it. Infact the majority of our products are available next day.

A total solution

Whatever type of emergency work our customers are involved in, from fire, ambulance & police through to the army and special forces, we are able to offer a comprehensive range of products to satisfy the most demanding performance criteria.

SP Services can offer independent advice and support on the products available to meet your requirements. In addition, our Medical Audit Service provides guidance on where you can rationalise your medical equipment, to make managing it simpler and easier.

Quality assurance

We continually check the quality of our products from the leading manufacturers and suppliers to ensure that quality standards are maintained.

SP Services is accredited to Quality Management ISO 9001 and ISO 13485. You can be confident that our products are of the highest quality and at competitive prices.

A Total Solution

Why SP Services ?

- Internationally recognised healthcare brands
- Dedicated customer support & after sales care
- Competitive prices
- Prompt delivery
- Innovative designs

citizenAID

Many people across the country have prepared themselves to know what to do when someone collapses with a heart attack. But being able to act effectively after serious injury from bomb blast, gunshot and stabbing requires different knowledge and skills. Quick actions in these situations, particularly to stop bleeding, will save lives.

The citizenAID Pocket Guide is a clear and simple series of immediate actions. YOU can be the person to provide information to the emergency services, to help organise others at the scene and to give life-saving care while waiting for the professionals to arrive.

citizenAID is grounded in deep and practical experience. The underpinning concepts have been tried and tested in numerous multiple casualty incidents involving blast and gunshot casualties during conflict. The treatment recommended reflects those skills that can be applied by people without medical training to save lives.

citizenAid Pocket Guide

- Clear and simple guide for immediate actions to help save lives from a major incident such as a shooting, stabbing or bombing.
- Helps organise others at the scene and give life-saving care.
- Developed with emergency services & cross-government agencies.
- Be prepared. Learn the system. YOU can save lives.

C-A-T Combat Application Tourniquets

Haemorrhage Control in Combat Situations

- The Combat Application Tourniquet (C-A-T™) is a true one-handed tourniquet that completely occludes arterial and venous blood flow of an extremity in the event of a traumatic wound with significant haemorrhage.
- The C-A-T uses a windlass system with a free moving internal band to provide true circumferential pressure to the extremity. Once tightened and bleeding has stopped, the windlass is locked in place. A Velcro strap is then applied for further securing of the windlass during casualty evacuation.
- Quickly controls life-threatening extremity bleeding
- Small and lightweight
- Cost effective
- NSN: 6515-01-521-7976 (IN/921)

Bespoke First Aid & Medical Bag Kitting Service

Did you know that we have a very busy bespoke first aid and medical kit assembly and production line? A lot of our customers choose SP Services as we can make up kits to their exact specification.

We can customise our existing emergency equipment and kits or even create new equipment kits to suit your exact requirements. Our Parabag range of bags is also rapidly growing and as well as the extensive range of bags we keep in stock at Bastion House, we also have an experienced design team who can help modify one of our existing bag designs or create your own brand new design.

No kit project is too big or too small. If you would like to discuss how we can work with you to bring your requirements to life, just call our sales office on 01952 288 999 or email us at sales@spservices.co.uk.

That's why we can be relied upon to provide "everything you need in an emergency".
