Summer 2019

Everything You Need in an Emergency

Everything You Need in an Emergency

Welcome to our **Summer 2019 Product Guide** which is packed full of new products we have introduced which include well known brands alongside our own Donway, Parabag and SP ranges.

As an innovative supplier of emergency medical supplies, our continued success is driven by the ability to develop and deliver effective solutions, whilst maintaining an unrivalled level of customer service. Our specialised knowledge and industry experience ensures that we can supply the correct emergency medical equipment and supplies on each occasion, having a complete understanding of the equipment requirements for patient care.

No order is too big or too small. We can customise our existing emergency equipment and kits to your specification or even create new equipment kits to suit your exact requirements. That's why we can be relied upon to provide "everything you need in an emergency".

We hope you enjoy looking through this **Summer 2019 Product Guide**.

Our full product range can be found on our website at www.spservices.co.uk

"Choosing the correct emergency medical equipment for today's demanding environments is not always easy. SP Services offers you support and guidance in selecting a total solution to give you peace of mind"

Steve Bray Managing Director

What you want, when you want it

SP Services is one of the largest suppliers of emergency medical supplies in the UK and has been established for over 27 years. Centrally based in the West Midlands our 32,000 ft² National Distribution Centre is ideally located to serve you, wherever you are in the country or the world.

Our huge stocks and regular deliveries ensure that you get what you want, when you want it. In fact the majority of our products are available next day.

A total solution

Whatever type of emergency work our customers are involved in, from fire, ambulance & police through to the army and special forces, we are able to offer a comprehensive range of products to satisfy the most demanding performance criteria.

SP Services can offer independent advice and support on the products available to meet your requirements. In addition, our Medical Audit Service provides guidance on where you can rationalise your medical equipment, to make managing it simpler and easier.

Quality assurance

We continually check the quality of our products from the leading manufacturers and suppliers to ensure that quality standards are maintained.

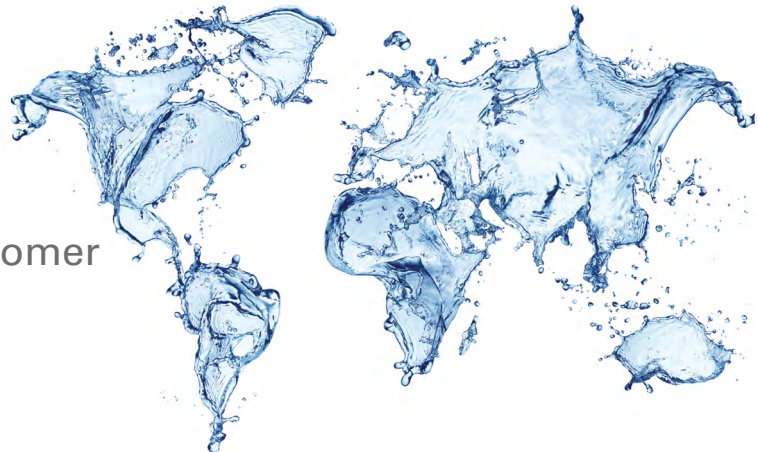

SP Services is accredited to Quality Management ISO 9001 and ISO 13485. You can be confident that our products are of the highest quality and at competitive prices.

A Global Partner

Why SP Services ?

Res-Q-Me Window Pouch Seat Belt Cutter

- Inspired by the car emergency hammer concept, Res-Q-Me is a revolutionary hand-held rescue tool that is amazingly powerful despite its tiny size
- Attaches to your key chain with a detachable clip for convenience
- To cut a seatbelt pull the clip away from the product to reveal the cutter (blade), hook over the seatbelt and pull.
- To break a window simply push the black head against a side window until the concealed spring loaded spike releases and shatters the window

Bleeding Control

citizenAID Tourni-Key with Anti-Pinch Card

The Tourni-Key is a simple idea. It is designed to provide an affordable tourniquet option for public use, by improvising with a strip of material that is commonly available - a tie, a thin scarf, a triangular bandage.

The Tourni-Key is a rod that is designed to be secured. You can 'quick lock' the device with the hook, or you can 'hard lock' the device by passing the blade under the tightened material.

We know tourniquets are painful and some of this pain comes from skin bunching. To reduce this 'pinch' we have added an 'anti-pinch card', to slide behind the knot before tightening.

We have chosen bright yellow for the device so it is easily visible when applied.

Designed by the experienced citizenAID team, the Tourni-Key™ is a new invention to empower individuals to carry a low cost solution to improvise a limb tourniquet.

- Moulded tough plastic Tourni-Key in high visibility yellow
- Provides a limb tourniquet when improvised with clothing e.g. tie or scarf or a triangular bandage
- Simple, ingenious hook design to secure the tourniquet
- Unique and distinctive: once you've tried it, you're hooked
- Anti-pinch card to reduce pain from skin bunching
- Illustrated instruction leaflet
- Cost effective solution for multiple casualty incidents
- Suitable for all ages where tourniquets are taught
- Single use
- Non-sterile

citizenAID Pocket Guide

Many people across the country have prepared themselves to know what to do when someone collapses with a heart attack. But being able to act effectively after serious injury from bomb blast, gunshot and stabbing requires different knowledge and skills. Quick actions in these situations, particularly to stop bleeding, will save lives.

The citizenAID Pocket Guide is a clear and simple series of immediate actions. YOU can be the person to provide information to the emergency services, to help organise others at the scene and to give life-saving care while waiting for the professionals to arrive.

citizenAID is grounded in deep and practical experience. The underpinning concepts have been tried and tested in numerous multiple casualty incidents involving blast and gunshot casualties during conflict. The treatment recommended reflects those skills that can be applied by people without medical training to save lives.

- Clear and simple guide for immediate actions to help save lives from a major incident such as a shooting, stabbing or bombing.
- Helps organise others at the scene and give life-saving care.
- Developed with emergency services & cross-government agencies.
- Be prepared. Learn the system. YOU can save lives.

Specialist Kits

Emergency Evacuation Bag with 200 Foil Space Blankets

When buildings are evacuated, which can be for a number of reasons, you can end up with a lot of your customers standing around in car parks (RVP).

If this is an emergency evacuation then your customers and staff might not be dressed for the outdoors, particularly if you work in a hotel, swimming pool, school or leisure centre.

We've seen a very harsh Spring this year, but customers can soon turn into patients at any time of year if they're standing around being rapidly cooled by the elements. Are you prepared?

Contains:

- 200 x BL/001 - Silver Foil Space Blankets
- 1 x FA/698 - Padded Zipped Emergency Bag in Red TPU Fabric

Other kit contents and designs are available, please contact us direct to discuss your particular requirements.

CODE	ITEM	PRICE
FA/596	Emergency Evacuation Bag with 200 Foil Space Blankets	£195.95

SP Parabag Decontamination Kit

The SP Parabag Decontamination Kit was designed in conjunction with the West Midlands Police. The Kit exclusively features the Home Office Remove, Remove, Remove info-graphic, an aide-memoir for treating victims of hazardous and corrosive substances.

Contains:

- 6 x Bottles of Water - 500ml
- 2 x Chemical Resistant Gloves
- 2 x Bottle Showers
- 2 x BioMask Anti-Infection (Anti-Viral) Face Masks - Single
- 2 x Warrior Safety Goggles
- 2 x Tuf Cut Paramedic Shears - Red
- 1 x Contents List

The SP Parabag Decontamination Kit includes 2 x Bottleshower. The Bottleshower is EXCLUSIVELY available from SP Services (UK) Ltd for Category 1 and Category 2 Responder's. The Bottleshower simply fits into the neck of any 500ml water bottle and increases flow time x 6 (tests showed that an upturned litre of water would empty in 8 seconds, with Bottleshower this increases to 48 seconds).

The SP Parabag Decontamination Kit is suitable for use by Police, Fire and Ambulance Services as well "crowded places" such as shopping malls, stadia, airports, leisure complexes etc. For more information contact [Paul Watts](#) or [Charlotte Crick](#).

Bespoke First Aid & Medical Bag Kitting Service

Did you know that we have a very busy bespoke first aid and medical kit assembly and production line? A lot of our customers choose SP Services as we can make up kits to their exact specification.

We can customise our existing emergency equipment and kits or even create new equipment kits to suit your exact requirements. Our Parabag range of bags is also rapidly growing and as well as the extensive range of bags we keep in stock at Bastion House, we also have an experienced design team who can help modify one of our existing bag designs or create your own brand new design.

No kit project is too big or too small. If you would like to discuss how we can work with you to bring your requirements to life, just call our sales office on **01952 288 999** or email us at **sales@spservices.co.uk**. That's why we can be relied upon to provide "everything you need in an emergency"

For more information call 01952 288 999

HeartSine samaritan PAD Defibrillators

The Physio-Control HeartSine samaritan PAD AED's are compact, lightweight and easy to use, available in a range of automatic, semi-automatic and trainer models.

The minutes following a sudden cardiac arrest are crucial. The HeartSine samaritan PAD AED's design means vital seconds are saved. Easy-to-follow visual and verbal guides help the first responder through the rescue process and provide effective life-saving treatment.

**PHYSIO
CONTROL**

Scope biphasic technology gives the patient a greater chance of survival. The self compensating output pulse envelope (scope) technology allows the use of escalating electroshock therapy which utilises a low-energy waveform and automatically adjusts to the patient's treatment needs.

All models use the company's interchangeable PAD-PAK™ cartridge. With a single expiration date for both battery and electrodes, the expense of tracking and maintaining accessories with different expiration dates is eliminated. In addition, the PAD-PAK features a rapid replacement mechanism that enables the battery and pads to be replaced easily in seconds.

HeartSine samaritan PAD 360P Defibrillator

- Compact, easy-to-use and designed especially for use in public areas, the HeartSine samaritan PAD 360P is a fantastic piece of lifesaving technology.
- Can analyse the patient's heart rhythm and automatically deliver a lifesaving shock. The defibrillator also features a 'motion detector' which can warn users of any excessive or unexpected patient movement.
- Durability – IP56 rated against dust particles & water - The highest rating in the industry, ensuring the unit is ultra protected.
- Advanced scope biphasic technology - Escalating, low-energy waveform adjusts to the patients requirements.
- Automatic shock delivery - Delivered after the defibrillator has analysed the heart.
- System Status Ready Indicator - Flashes when to indicate the unit is operational.
- Carry case included
- Defibrillator warranty: 10 years
- Battery stand-by life: 4 years
- Electrode pad life: 4 years

HeartSine samaritan PAD 500P Defibrillator with CPR Advisor - Semi Automatic

- Helps provide professional first-aid care. Whether you're new or a professional it can guide you through both elements of the rescue process: defibrillation and CPR.
- Impedance Cardiogram – Analyses changes in blood volume of the patient, particularly in the chest cavity which determines the effectiveness of CPR. If required the unit prompts you to push faster or harder, allowing the patient to receive better care.
- Clean, clear, visual and verbal guides help the first responder through the rescue process so anyone can provide effective life-saving treatment.
- CPR feedback tool coaches you through chest compressions.
- Carry case included
- System Status Ready Indicator - Flashes when unit is operational.
- Defibrillator warranty: 10 years
- Battery stand-by life: 4 years
- Electrode pad life: 4 years

Donway Manual Handling & Lifting Kit including Banana Board

The Donway Manual Handling & Lifting kit is the ideal solution for providing safe and effective patient handling. Commonly used by NHS and Private Ambulance Services as well as Falls and Crisis Response Teams.

Contains:

Transfer Turntable (Load limit 115 Kg)

- Strong but lightweight Transfer Turntable
- Full 360 degree turning circle and a gripped, anti slip, upper surface for added user safety & security.
- An invaluable aid for a carer or relative, providing a smooth, easy and constant rotation when transferring a user to and from a bed, chair, commode or car etc. without the need to move their feet and legs.

Transfer Lifting Belts (Small, Medium & Large)

- Designed to assist the person getting out of their wheelchair, bed, chair or transferring from short distances.
- Four webbed handle grips for additional safety when transferring.
- Belts can be adjusted and buckled around the person's waist enabling the carer to reach the webbed handle.
 - Small Transfer Belt - 68 x 94cm
 - Medium Transfer Belt - 85 x 112cm
 - Large Transfer Belt - 90 x 119cm

Banana Board (Load limit: 200 Kg)

- A patient transfer board designed for patient movement when seated
- Low friction, sliding surface for swift and easy movement
- Curved shape, suitable for lateral transfers either unassisted or with the help of others

Tubular Glide Sheets (Medium & Large)

- A useful aid to carry out tasks such as repositioning patients in bed
- Helps caregivers to perform their jobs with greater comfort and safety, preventing strain injuries due to low friction.
- Washable and reusable
 - 2 x Tubular Glide Sheet - 200 (H) x 72cm (W)
 - 1 x Tubular Glide Sheet - 70 (H) x 72cm (W)

Carry Case

- Durable carry case with multiple internal sections
- Neatly secures equipment safely until required

Laerdal Little Anne QCPR Manikin

Recently introduced as the replacement for the well-known Little Anne manikin, the Little Anne QCPR manikin comes with a variety of great new features built in as standard.

Providing feedback based on just watching students perform can be challenging for instructors. The next generation of the Little Anne manikin includes QCPR measurement and feedback technology that takes the guesswork out of instruction - all from the palm of your hand.

Little Anne QCPR works with an instructor app that allows you to monitor and coach up to six students at once, and a learner app that lets students monitor their own performance. Little Anne QCPR helps instructors improve CPR training quality and efficiency in their courses, while adding a fun and engaging element for students that promotes learning and motivation

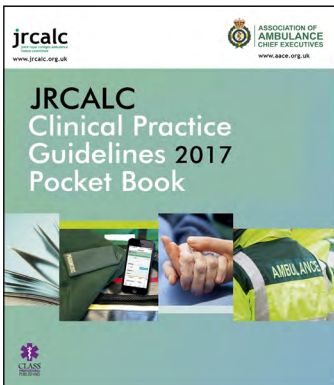

The Little Anne QCPR Manikin Includes:

- 1 x Little Anne QCPR Manikin
- 2 x Manikin faces
- 2 x Airways
- 6 x Manikin wipes
- 1 x Jacket for Manikin
- 1 x Soft pack carrying case/training mat

JRCALC Clinical Practice Guidelines 2017 Pocket Book

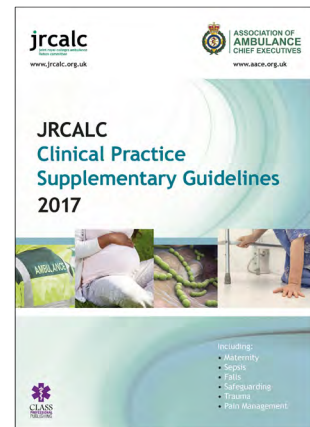

- The JRCALC Clinical Practice Guidelines 2017 Pocket Book is up to date with both the 2016 guidelines and the 2017 supplementary guidelines, all in one pocketbook.
- It includes the latest guidance on drug administration for diazepam, misoprostol, paracetamol, oxygen, naloxone hydrochloride and 0.9% sodium chloride.
- The Pocket Book is also up to date with best practice on pain management and spinal injury algorithms. This quick reference tool provides reference and reassurance for all out of hospital clinicians. It provides a unique perspective on clinical decision making, highlighting important aspects such as the balance between intuition and experience as well as professional issues.
- Chapters include:
 - Cardiac Emergencies
 - Emergencies in Children
 - Obstetric and Gynaecological Emergencies
 - Emergencies in Adults
 - Major Incidents
 - Drugs
 - Pain Management
- Published November 2017
