What size BS 8599-1 first aid kit do you need?
Employers are required to make a risk assessment to decide what the hazard levels are and how many employees are involved in the area to be covered. This is a useful guide to help match this risk assessment to an appropriate size or kit.

Category of Hazard	Number of Employees	Size of First Aid Kit
Low Hazard e.g. shops, offices, libraries etc.	Less than 25	Small Kit
	25-100	Medium Size Kit
	More than 100	1 Large Kit Per 100 Employees*
High Hazard e.g. light engineering and assembly work, food processing, warehousing, extensive work with dangerous machinery or sharp instruments, construction, chemical manufacture etc.	Less than 5	Small Kit
	5-25	Medium Size Kit
	More than 25	1 Large Kit Per 25 Employees

* depending on locality
